

KIARA AVIATION

Fine Aviation Upholstery Services

KIARA AVIATION

closely works with airlines,
business aviation operators
and maintenance centers providing
customized solutions for a unique cabin.

Among its various services, our company
produces leather and textile aircraft seat covers,
side panels and leather inserts, tables,
partitions, curtains, carpets.

KIARA AVIATION always proposes cost-effective
solutions and it is the right choice for all
customers looking for a deep revamping of their
fleet's cabin interiors in the shortest lead-time.

KIARA AVIATION's competitive advantage relies
on the perfect combination of a hand-made
production, high quality design and excellent
manufacturing skills.

OUR SERVICES

KIARA AVIATION supports any kind of clients'
requirements (airlines, private business
operators, MROs) providing:

- Full aircraft cabin fleet revamping program
(seat covers, panels, curtains),
- Seat covers and cushions retrofit program (also
for single a/c),
- Maintenance and repair of covers if both
leather and fabric.

KIARA AVIATION

is a leading company in the field
of aircraft interiors upholstery production.

Thanks to a thirty-year experience of its
specialized staff in leather manufacturing,
KIARA AVIATION designs and produces excellent
and innovative seat dress covers, cushions and
other cabin equipment.

WHAT WE DO

KIARA AVIATION ensures excellent quality in manufacturing passenger aircraft seats, VIP and business aircraft seats, berths, divans and other custom cabin equipment.

Besides, our company provides a wide range of services from the analysis of the specific customers' needs until delivering the final product.

For instance:

- Preliminary study and assessment for new design matching and harmonization of the cabin interiors;
- Proposals of new style of cushion shape, density and covers appearance (stitching, shape, colour);
- Proposals of optimized ergonomic/aesthetic solutions ensuring passengers comfort.

CERTIFICATION

KIARA AVIATION is UNI EN ISO 9001:2008 certified.

Our company monitors every phase of the production process and it uses materials and certified suppliers to provide the highest quality products to their customers.

All products are fully compliant with FAR/CS 25.853, Airbus ABD0031 and Boeing BSS requirements.

KIARA AVIATION also complies with the customer's MOE (Part 145) and POE (Part 21) procedures and it works as qualified sub-contractor under the customer Quality System Management (QSM).

The achievement of POE certification (Part 21) is underway.
